## Central Traffic Presidents Discuss Propositions

Presidents and other executive officers of the ratiroads which operate in central Traffic

territory met in this city yesterday and dis-

trears that the custom has been abused out "employees" passes have been used a purpose of influencing traffic. Presinguish of the Ba Four existem, and certher Western railroad men have long a navor of abolishing the practice of this class of passes, and their sentiments of at a secretary's conference. er with representatives of the Eastern

### PACIFIC COAST COMPANY'S REPORT. Profit ble Operation of Railroads, Mines and

nal report of the Partific Coast Com-\$17,178 after paying dividends. There was an offic Coast Rallway and an increase of \$65,117 in the net earnings of the columbia and Puget the net earnings of the columbia and Puget Sound Railroad. The Fort Townsend Southern Italiany increased its goess earnings, but an abnormal increase in operating expenses prevented any increase in the net. The output of the company's coal mines exceeded that of the prevented any increase is the net. The output of the company's coal mines exceeded that of the prevented of \$72,120 is the profits. The net earnings from the operations of the company's fleet of steamships were \$41,312 in excess of the previous year. The directors have authorized the sole of the company's unimproved real estate in Seattle, owned by the Columbia and Puget Sound Railroad, as soon as full value is Puget Sound Railroad, as soon as full value

### Northern Pacific on a 4 Per Cent. Basis.

the full board of directors of the Northern Pacific Railroad yesterday ratified the action of the Executive committee in declaring an extra dividend of 1 per cent, on the stock. This ke 4 per cent, for the current sear and Presi ent Mellen and last evening that Northern President Mellen and President Mellen and President Mellen and President Hill of the Great Northern and gave President Mellen full power to work out the details in conjunction with the Great Northern and the Pacific Coast Company.

### Five Million City 40-Year 3 1-21.

proposals for \$5,383,865.04 worth of \$1/2 per cent. were Atchisen issues, Georgia Central 5s, ity bonds. More than half of the proceeds of this sale will be used in paying for lands to of this sale will be used in paying for lands to be acquired for new public parks. The Comptroller said vesterday that he thought the price of the bonds would follow the market in its browners and that he hoped to sell them at a sufficient premium to reduce the interest rate basis from \$.07 to 3.02. There will be two sales, one on Nov. 20 and one on Nov. 21. All but \$50,000 will be sold on the first day. The largest from \$.52.516,888.33 for three parks. There are other large items for public school buildings and sites.

### Live Stock Market.

### FINANCIAL AND COMMERCIAL.

THURSDAY, Nov. 8. While the excitement that characterized yesterday's market died away to-day the speculation was unusually active, the total transactions being in excess of a million shares, National City Bank's \$2.500,000 of South London was again a free seller, its net sales African Gold Which Is Supposed to Be being estimated at about 75,000 shares. The the Lot New Here or the I quivalent of It. only stocks that it bought to any extent were What Wall Street understood was the consignment of \$2,500,000 of South African gold Northern Pacific common. There was very the National City Bank, about which there extensive taking of profits on the leng side has been so much mystery, arrived on the steamship Kalserin Maria Theresta. The gold, porary check to the rising tide of prices. That which came in fifty wooden hoves, was taken to the United States Assay Office yesterday day, still the market cannot be described as Each box was marked with the initials "P. P. irregular, for the tone was strong throughout. K.," and this circumstance started afresh the report that the gold had come from President covered buying orders given by investors Paul Krüger, now ex-President of the South who falled to secure stocks at the advantageous African Republic, whose full name is Stephen prices that prevailed before the election.

Tohn Paul Krüger | The manifest of the teams | Another feature of the market was the revival shift did not disclose the origin of the gold. Of fresh interest in a number of stocks that

merely stating that the boxes and been shipped yesterday did not receive special attention. by the London agency of the Dentscho Bank, Conspicuous in this category were Brook-and were consigned to order. The value lyn Rapid Transit, Manhattan Railway, Metof the consignment was put at the Asser Office it entire list in respect to activity and enjoyed was found that, packed in sawdust, they const a net gain of 5% points. This movement is tained gold bars every one of which was a explained to an extent by the publication by the company of a comparative statement of the inscription stamped on the bars they its operations for September and for the quarhad originated in this city all the ways ter ending Sept. 30, in a form which indicates from 1898 to the current year. Based that it is the intention of the company to issue bars a few of them and jett this city present statement is interesting as showing ns recently as July last Just why the boxes an increase of over \$50,000 in not receipts for were marked "P P K" was not learned, and Settember, which is brought about entrety officers of the City Bank when onestioned by a decrease of more than that amount in were evasive in their replies. The surgestion , the operating expenses, for the gross receipts was made that if the gold readly represented show a accrease as compared and that if the gold readly represented of \$0.652. The statement for the abundary shows a substitution in London of United States Askab Office bars for the actual South African reads.

Also on the Raiserin Maria There is was

Also on the Raiserin Maria There is was

£50,000 of gold from abroad consigned to the
Hanever National Bank Most of the consignment was in the form of limitsh cold bars. That a radical change in the management is 10. but there were also a number of bars marked i to take place before long in consequence . with the stamp of a minute company of New | transfer of a controlling interest in the proper The two lots together brought up. The dealings in Manhattan Railway were reand the net advance was larger, being nearl & per cent. A prominent speculative interest

Tammany Leader of the Altermen Yields. was supported to an extent by reports of the After Fig. tiling Bryanish speeches. After Vol ting Bryanish precises.

When the mandanes to connel the Alderthe appropriate that is being made toward equipping the system with electric metive power and being made toward equipping. When the mandanes to comed the Alder- the announcement that the company will at mento be not be able to the will be the company will at once increase its train service because of the in Murhattan crune up before the board yesterday Vice-President McCall said that while he averaged the building of the school he was opposed to severament by infunction, and that the change in motive power is to be made, this be would like to have whether is was in the circumstance is accorded serious consideration power of over body colling himself a property by the investing public. Metropolitan, which

be built. The beard, however, approved the ditions prevailing in the sugar trade than obbonds and Mr. Met ad voted in the aftirmative. tained yesterday, when the reduction in the bonds and Mr. Met all voted in the altractive, is startwood sinken, acting for the Execustive committee of the Hall on Records Association, sent a letter to President Woods of the Board of Alderman vesterday, requesting the immuel to passage of the bond issue now being hell up in that body. Mr. Menken's fining Company has made enormous profits letter is practically a threat that unless the this year and is in a position to inissue I passed in two weeks, a mandamus crease the dividend upon its common stock should the management see TO ABOLISH EMPLOYEES: PASSES. St to do so. The tobacco stocks received a good deal of attention and American closed points higher than last night. An early sharp advance in Continental invited selling which was apparently in the main for short account and which was based upon an analysis of the company's statement of earnings pubterritory unet in this city yesterday and discussed plans for the abelition of the practice of recuing passes to railroad employees. The lines interested are the Lake Share, the Mtehigan Central, the Pennsylvania, the Baltimore and Ohio, the Wabach, the Big Four, the Eric and others which traverse the territory west of Bafalo and east of Chicago and St Louis. Commissioner J. F. Goddard presided. The practice at present is for a railroad other industrials that received noteworthy company to issue passes to the employees of any other range and upon application through the paper channels. The use of this class of passes has grown to large preportions and the alliegation has been made repeatedly within recent years that the custom has been abused and that female are sufficiently have been used transactions. The selling came chiefly from Chicago, where rumors were current that the company will pass the next divide dupon the preferred stock. It is authoritatively stated that the usual dividend will be declared next

week, and that in spite of the high price of oil there is a steady consumption of that commodity. The advance in the price of oil is due or tirely to the serious damage to the linseed crop in Argentina and Russia; hence present quotations are likely to be maintained for some time to come. The American Linseed Company reports that its October business was the largest in its history, and, as it has secured a large amount of seed at comparatively low prices urrent earnings are entirely satisfactory. A sharp advance in People's Gas which carried the price within a fraction of par is doubtless tony a siego exesterday in namphlet form based upon the result of the election in the State wa for the last fiscal year a surplus of of Illinois, which secures to that Common wealth an administration of local affairs that is conincrease of \$41,235 in the net earning of the Pa- fidently counted upon to treat corporations fairly.

The railway list was not neglected; at the same time the trading in it was not as extensive as vesterday. The declaration of an extra dividend of 1 per cent, upon Northern Pacific common was, as usual, the signal for a good deal of profit taking. In spite of it, however, the stock closed at the same figure that it did last night. The resolution adopted by the directors in declaring the dividend to-day states that hereafter dividends that may be declared pon the common stock will be paid marterly on the 5th of February, May, August and November in each year. It may be assumed therefore that the stock is now estab-lished upon a 4 per cent, basis. The few reliway issues that scored noteworthy not gains were Chesapeake and Ohio, New York Central, Canada Southern and several of the blahpriced investment issues. The others closed practically unchanged. The money market was easier in all departments as described in detail further on in this column. Receipts

the extent of \$542,000. The dealings in bonds were about 20 per Comptroller Coler advertised yesterday for well maintained. The conspicuous features Chicago and Alton 81/8, Mexican Central first incomes and Northern Pacific issues. In the outside market the copper stocks were active. Amalgamated Copper was weak on the result Amalgamated Copper was weak on the result of the election in Montana, which is regarded as unfavorable, to the interests of the company in that State. On the other hand the market for British Columbia and for Union Copper was strong. Havana Commercial issues advanced sharply on moderate buying The closing of all departments of the security market was strong.
